

Press Release

To: Public Media and City Staff
From: Ray Ibarra, Public Works Director
Date: 8/10/2016
Re: Start of the Upcoming School Year

The City of Junction City Public Works Department will be turning on the School Zone Warning Flashers starting Wednesday, August 10th.

The School Zoning Warning Flashers will be turned on this week as a reminder for drivers that area schools will be in session next week and to obey the 20 MPH school speed zones. Drivers also need to pay close attention to the school children during the morning and afternoon hours when children will be walking.

If you have any question please contact the Public Works office at 238-7142.
